

# The Young Octorial programme

An academically demanding and culturally rewarding programme for teenagers who want to become articulate speakers and thinkers in English

## The course includes:

The programme channels the energy and creativity of young people into the real life achievements of academic results and personal growth. Students graduate from their summer programmes inspired for further study with new language skills, international friendships, wider horizons and lasting memories. The courses for young learners focus on developing students' confidence using English by developing the real-world skills necessary for life in an increasingly globalised world.

There is a maximum of 8 students in each class. This allows the teachers to give each student more attention and allows the students to engage more fully with the language and make faster progress. Lessons are fast-paced and encourage the students to engage with authentic English language materials. Challenging and creative homework encourages the development of autonomous learning skills, and takes learning out of the classroom and into everyday life.
